

E&A; Market Observer — Qatar (Sept 1–28, 2025)

Concise, Siemens E&A;-focused scan of Qatar's electrification & automation (LV/MV, protection & automation, retrofits, digital/IoT, SF₆-free, E-House).

Article/Report Dossiers

1) Kahramaa Tender — Supply of Protection Relays for Electricity Distribution Network Substations

- bullets:
- Limited Tender LTC/2336/2025 for supply of protection relays to distribution substations; submission closes 28-Sep-2025.
- Listing indicates procurement window from 10-Aug-2025 to 28-Sep-2025.
- entities: Kahramaa (Qatar General Electricity & Water Corporation).
- category: Projects/Tenders
- relevance: 5 (direct LV/MV protection hardware scope aligned with SIPROTEC portfolio).
- title: Tenders – Supply Of Protection Relays For Electricity Distribution Network Substations
- date: 28-Sep-2025 (submission close)

Source: Kahramaa Tenders list (shows title and 28-09-2025 end date).

2) Kahramaa Tender — DMA SCADA Integration & Interfacing

- bullets:
- Tender LTC/2121/2024 (Dept: Electricity Projects) for DMA SCADA integration & interfacing; closing 21-Sep-2025, 12:00 PM.
- Bid bond: QAR 100,000; Docs fee: QAR 1,000; bond validity: 120 days.
- entities: Kahramaa; Limited Tenders Committee.
- category: Projects/Tenders (Digital)
- relevance: 5 (SCADA & integration services—core to Siemens E&A; digital substation/automation stack).
- title: Dma Scada Integration & Interfacing
- date: 21-Sep-2025 (submission close)

Source: Kahramaa tender details page.

3) Kahramaa Tender — Electricity Distribution Network Works (GTC)

- bullets:
- GTC/1239/2024, Department: Electricity Projects; document purchase ends 02-Oct-2025 (active during Sept).
- Docs fee: QAR 30,000; Bid bond: QAR 3,000,000.

- entities: Kahramaa.
- category: Projects/Tenders
- relevance: 4 (broad distribution scope—potential switchgear, protection, automation packages).
- title: Electricity Distribution Network Works
- date: 27-Aug-2025 (purchase start); 02-Oct-2025 (purchase end)

Source: Kahramaa tender details page.

4) QatarEnergy signs 2 GW Dukhan Solar (grid impact)

- bullets:
- QatarEnergy signed deal with Samsung on the 2 GW Dukhan PV project; Phase-1: 1,000 MW by end-2028 to Kahramaa grid.
- Implications: new 400/220/132 kV grid interfaces & substation capacity to evacuate PV.
- entities: QatarEnergy; Samsung; Kahramaa (grid off-take).
- category: Projects/Tenders
- relevance: 5 (drives demand for HV/MV GIS, transformers, protection, digital substation, potential E-Houses).
- title: QatarEnergy signs Dukhan solar plant deal with Samsung
- date: 16-Sep-2025

Source: MEED (project scale and phasing).

5) RetrofitTech & Sustainable Buildings Qatar Summit (demand signal)

- bullets:
- 8-9 Sep 2025, Hilton Doha: industry summit focused on retrofits, energy efficiency, sustainable buildings.
- Positions retrofit market (BMS upgrades, IoT metering, LV/MV modernization) as near-term investment theme in Qatar.
- entities: RetrofitTech Qatar (event organizer), Qatar construction ecosystem.
- category: Demand/Behavior
- relevance: 3 (pipeline for retrofit-driven LV/MV, protection upgrades, digital services).
- title: 4th RetrofitTech & Sustainable Buildings Qatar Summit
- date: 8-9 Sep 2025

Sources: event site & partner listings.

6) TECNALIA approved as KAHRAMAA third-party lab

- bullets:
- 15-Sep-2025: TECNALIA gains official KAHRAMAA third-party lab approval to provide accepted test reports up to 33 kV for LV/MV switchgear, instrument & distribution transformers, energy meters, insulators/materials.
- Lowers friction for product compliance into Qatar distribution network.
- entities: TECNALIA; Kahramaa.
- category: Market/Regulation

- relevance: 4 (affects type-testing/approval pathways for Siemens/competitors; impacts time-to-market).
- title: TECNALIA secures approval as third-party laboratory by KAHRAMAA
- date: 15-Sep-2025

Source: TECNALIA announcement.

7) Local competitor activity — LV Switchgear delivery (Agriculture segment)

- bullets:
- 14-Sep-2025: Bingham Engineering Qatar showcases internal testing of LV MCC for farm irrigation (Doha post).
- Signals private-sector LV demand in water/agri applications and active local panel-builder presence.
- entities: Bingham Engineering Qatar.
- category: Competitor / Demand/Behavior
- relevance: 2 (niche scope; shows active local LV integrators competing on MCCs).
- title: Delivering Reliable LV Switchgear for Agricultural Innovation
- date: 14-Sep-2025

Source: Company news post.

8) Competitor digital posture — ABB in IIoT platforms

- bullets:
- 23-Sep-2025: ABB named a Leader in Gartner 2025 Magic Quadrant for Global Industrial IoT Platforms.
- Reinforces ABB's digital stack credibility (relevant to utility/industry IoT in Qatar).
- entities: ABB; Gartner.
- category: Competitor (Technology)
- relevance: 3 (competitive pressure vs Siemens Xcelerator/Industrial IoT offers in Qatar).
- title: ABB named a Leader in the 2025 Gartner® Magic Quadrant™ for Global Industrial IoT Platforms
- date: 23-Sep-2025

Source: ABB press release.

Weekly Synthesis — “So What for Siemens E&A; in Qatar?”

Week 1 (Sept 1–7)

- Overarching insights:
- Kahramaa's Protection Relays procurement (close 28-Sep) underscores immediate LV/MV protection refresh needs.
- GTC Distribution Works remains open—points to sustained network expansion requiring switchgear, protection & automation packages.

- Call-outs:
- Opportunities: Line-up SIPROTEC-based offers & local value-add for the relays tender (LTC/2336/2025).
- Risks: Local panel-builders remain active across LV scopes; anticipate price competition on commodity gear.

Executive summary: Early September shows a live procurement lane for protection relays and distribution works, suggesting steady capex in the distribution grid. Siemens should anchor proposals around proven relay platforms, lifecycle services, and cybersecurity-ready configurations, while preparing turnkey packages for broader distribution works (including MV/LV switchgear and automation).

Week 2 (Sept 8–14)

- Overarching insights:
- RetrofitTech Qatar (8–9 Sep) highlights retrofit & efficiency momentum—opening doors for digital metering, load management, and LV/MV upgrades.
- Local LV integrators (e.g., Binghamlib) active in agri/water MCCs—diversifying demand beyond buildings.
- Call-outs:
- Opportunities: Package retrofit playbooks (SF₆-free options, digital services) for facility owners attending RetrofitTech.
- Risks: Price-driven LV competitors can lock in smaller scopes; differentiate via remote diagnostics and OEM protection expertise.

Executive summary: Mid-month events signal retrofit budgets and sustainability KPIs rising in facilities and water/agri, favoring Siemens bundles that pair LV/MV modernization with digital energy management and IoT-enabled services.

Week 3 (Sept 15–21)

- Overarching insights:
- TECNALIA gains KAHRAMAA lab approval (up to 33 kV), potentially accelerating compliance for MV/LV products—plan qualification/testing pathways accordingly.
- Dukhan 2 GW PV contract signed; 1 GW by end-2028—expect incremental substation/DNA needs.
- DMA SCADA tender closes 21-Sep—digital integration demand is active now.
- Call-outs:
- Opportunities: Offer SCADA/telemetry integration + cybersecurity (IEC-62443 aligned) as part of DMA scope.
- Risks: Third-party test approvals may lower barriers for rival equipment certifications.

Executive summary: Week 3 concentrates both grid-scale solar integration and distribution-level digitalization. Siemens should push end-to-end offers (protection, automation, OT security) and line up type-tests via approved labs to compress bid lead times.

Week 4 (Sept 22–28)

- Overarching insights:
- ABB recognized as IIoT platform Leader (23-Sep)—competitive signal in digital services for utilities/industry.
- Protection Relays tender deadline 28-Sep—finalize Siemens offer positioning (accuracy, redundancy, grid-code fit).
- Call-outs:
- Opportunities: Close on relay scope with SIPROTEC + DIGSI + lifecycle services and local partner enablement.
- Risks: Digital perception gap vs. ABB IIoT narrative—mitigate by highlighting Siemens Xcelerator references.

Executive summary: The month closes with a protection hardware deadline and heightened digital competition signals. Siemens should double-down on a high-compliance, service-rich relays bid while reinforcing our IoT/analytics credibility in parallel pursuits.

Additional Technology & Sustainability Notes (Qatar context)

- Local vendor Q-Tec Switchgear markets SF₆-free 36 kV MV panels in Qatar—indicates a growing SF₆-free supply base to benchmark. Action: keep blue GIS / fluoroketone-based alternatives visible in retrofit proposals.

Top Opportunities (Month)

- 1) Protection Relays (LTC/2336/2025): Lead with SIPROTEC portfolio + staged retrofit execution + local services.
- 2) DMA SCADA Integration: Bundle SCADA/RTU comms, gateways, cybersecurity, and asset management analytics.
- 3) Dukhan 2 GW PV Grid Integration: Position GIS, transformers, protection, digital substation, and E-House options for PV evacuation and grid stability.

Top Risks / Competitive Threats (Month)

- 1) Digital platforms race: ABB's IIoT positioning could sway industrial clients—counter with Siemens Xcelerator + local success stories.
- 2) Local LV integrators: Active panel-builders (e.g., Binghamlib) can undercut on LV MCC scopes—differentiate on diagnostics, MTTR, and OEM protection.
- 3) Testing/approval dynamics: TECNALIA's KAHRAMAA approval may broaden competitor certification pathways—ensure Siemens types/tests are pre-cleared to avoid delays.

Month-End Executive Summary (4–6 lines)

September 2025 in Qatar delivered immediate E&A; opportunities: Kahramaa's Protection Relays tender (close 28-Sep) and DMA SCADA integration (close 21-Sep) confirm active protection & digitalization spend at distribution level. In parallel, QatarEnergy's 2 GW

Dukhan PV contract (1 GW by 2028) flags future substation and grid-integration demand. The RetrofitTech summit reinforced sustainability-led retrofits as a client priority, while TECNALIA's KAHRAMAA lab approval could streamline (and intensify) competition on MV/LV product certifications. ABB's IIoT recognition underscores a rising digital narrative Siemens must match with Xcelerator-backed offers—anchored to our SIPROTEC, SCADA, SF₆-free, and E-House strengths.

Prepared as a concise strategy input for Siemens E&A; Qatar (LV/MV, protection & automation, retrofits, digital/IoT, SF₆-free, E-House).
